U. S. Patent and Trademark Office PTO-326 (Rev. 9-97)

Part of Paper N . 12

Application/Control Number: 09/721,111

Art Unit: 1617

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by Andrews.

Andrews teaches a composition comprising polyoxyethylene derivative tackifier at 1-25% (column 8 lines 17-20) and a celluosic derivative up to 15% (column 5 lines 37-39). As to the former, poloyamers, including pluronic F 68, F 108, and F 127, are specified (column 5 lines 47-68), the same as disclosed by applicants (Table I, page 18). As to the Latter, ethyl cellulose is specified (column 7 lines 6-10). These agents are dissolved in an organic solvent. (column 6 lines 49-53). Relative to the combination of the two derivaters, 25% of the former translates to 62.5% and 15% of the Latter franslates to 37.5%, reading on applicants' claimed ranges.

No claims allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward J. Webman whose telephone number is 308-4432. The examiner can normally be reached on Monday-Friday 9am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, S. Padmanabhan can be reached on 305-1877. The fax phone numbers for the organization where this application or proceeding is assigned are 305-3592 for regular communications and 305-1235 for After Final communications.

Art Unit: 1617

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 308-1234.
